The Tallies learned so much meeting 1-on-1 with 200+ faculty and will meet with remaining members this fall.

To aconlon@fhcrc.org to reserve your seat at our 1st faculty retreat 6/26/15 with keynote José Baselga.

Our first year progress report is attached for your purusal.

Eric, Desert & Team

ONCOLOGY RECOGNITION DAY JUNE 13, 2014

EMPLOYEE RECOGNITION AWARDS

David Greene (FHRC), Maggie So (SCCA), Sonja Stella (UWM)

PROCESS/SYSTEMS IMPROVEMENT AWARDS

“Pathology Accessioning Improvement Project”

Lisa Sleeman and Team

“Extraction of Pancreatic Diagnosis and Staging from Clinical Notes and Pathology Reports Using Natural Language Processing”

Jennifer Yahne and Team

“Collaborations in Translational Science for Leukemia”

Dr. Elihu Estey and Team

“Survivorship Clinical and Study Data Management System”

Drs. K Scott Baker, Karen Syrjala and Team

People’s Choice Award “Fostering a Diverse Scientific Community at the Hutch and Beyond” by Hutch United

CCSG EARLY PHASE CLINICAL RESEARCH SUPPORT GRANTS

A Pilot Study to Determine the Safety of GLA-SE in Patients with Metastatic Sarcoma Requiring Radiation for Superficial Primary Tumors

Drs. Robin Jones and Seth Pollack

A Phase 1 Study of Somatostatin Analog SOM230 with BKM120, a Pan-Class I PI3K Inhibitor in Advanced and Refractory Carcinoid Tumors

Drs. Gabriela Chiorean, Colin Pritchard, Ray Yeung and Jeannine McCune

STTR GRANT PROJECTS & AWARD RECIPIENTS

BRAIN

Deconstructing Glioma Heterogeneity through Single Cell Genomic Analysis

Drs. Robert Rostomily, Patrick Paddison, Jay Shendure and Andrei Mikheev

BREAST

Innovations In Tissue Sampling And Imaging Of Bone Dominant Metastatic Breast Cancer

Drs. Hannah Linden, Peggy Porter, Stephen Schmechel, Jean Lee, Paul Kinahan, Ken Krohn, Jennifer Specht and Evan Yu

COLORECTAL

Discovery and Verification of Novel Biomarkers of Colorectal Cancer Recurrence

Drs. Christopher Li, Paul Lampe, Margaret Pepe and Maria Westerhoff

HEAD AND NECK

A Human/Mouse Co-Clinical Trial to Study Response to Small Molecule Inhibitors of G2/M Cell Cycle Regulation in p53-Mutant Head and Neck Cancer

Drs. Eduardo Mendez, Christopher Kemp, Laura Chow and Colin Pritchard

LUNG

Developing Tumor-Infiltrating Lymphocyte (TIL) Therapy for Non-Small Cell Lung Cancer

Drs. Sylvia Lee, A. McGarry Houghton, Stanley Riddell, Martin McIntosh, Laura Chow and Christina Baik

OVARY

Big Data Approach to Identify Molecular Basis for Clinical Phenotypes in Ovarian Cancer

Drs. Su-In Lee, Charles Drescher, David Hawkins and Mara Rendi

PANCREAS

Developing an Implantable Polymeric T-Cell Delivery Device to Treat Unresectable or Non-Resected Pancreatic Cancer

Drs. Matthias Stephan and Venu Pillarisetty

PARTIAL MOLECULAR PROFILING

Over the next year, STTR in collaboration with NWBioTrust will be providing biospecimens, an organ-specific data dictionary and correlative clinical data for the following Translational Research Teams:

Breast, Colorectal, Head and Neck, Lung, Pancreas
